BANKING IN CALIFORNIA. A long and able paper on "The Progress of Banking in California," by Benjamin C. Wright, of San Francisco, was presented to the Convention, of which the following is the opening:

Mr. President and Gentlemen of the Convention;
Eastern eyes are turned toward California as
they have not been turned since the days of the
argonauts. Eastern cars are open to the wants
and promises of California as never before.
Eastern hearts are yearning for California as in
no previous period of its history. Eastern people are coming to California in large numbers
and with the view of permanent settlement. REASONS FOR THE WESTWARD MARCH.

REASONS FOR THE WESTWARD MARGH.

What has brought about this condition of things? The causes are various. California has demonstrated its right to exist and to be recognized as one of the foremost States of the Union. It has shown that it is capable of seif-support. For thirty-nine years it has held a place in the sisterhood of States. When its star was first added to the field of blue on the flag of the country there were grave doubts as to the propriety of the measure. Those doubts have long since vanished. The large amount of gold, \$1,500,000,000, added to the world's stock of specie by California, has not only given her the name of the Golden State, but has given her a fame among the nations of the earth which no other State can claim. The gold did much to prevent a disruption of the United States in 1861 to 1864, when the Government's credit was low.

Evidence at the Inquest on the Railroa Victims. HUNTINGTON (Ind.), October 12th .- Th testimony before the Coroner's jury here as to the collision on the Chicago and At lantic Railroad, near Kout, began with the deposition of J. B. Park, conductor of the passenger train. He testifies that his train was nearly two hours late, having broken

the eccentric strap on the engine between Hurlburt and Boone Grove.
"We stopped for water east of Boone Grove," he continued. "In three minutes, train number 48 struck us on the rear end and telescoped the sleeper into the ladies' car, smoker and baggage car. The wreck took fire at once. We got eighteen passengers out. Nine were killed and burned. The semaphore was turned when we stopped. I did not know the freight train was coming. When it struck us it was running at the rate of twenty miles an

hour.' All the train men examined claimed that the night was foggy and that the dan ger signals could not be seen until they were right upon them.

THE MOROCCO QUESTION. Prospective Gathering of Men-of-War in the Mediterranean.

Paris, October 12th.—The Journal des Debats says that France does not desire to take possession of Morocco, nor to do inary to the material interests of Spain. The Moorish waters will soon witness an assembling of men-of-war of all countries, in which event America will be represented. The precise object of this assemblage, the Journal continues, is unknown, and it is possible that the participants are animated by widely divergent intentions. If the object be to guarantee the equilibrium of the Mediterranean, the programme is extremely yague and yagur equilibrium of the Mediterranean, the programme is extremely vague, and every dangerous. France and Spain, which alone have direct and positive interests there—the chief of which is to prevent Morocco from becoming a second Bulgaria—should establish a mutual understanding

-E. P. Jenkins, an Englishman, 50 years old, who is living at the southeast corner of Twenty-first and Bainbridge streets, has not tasted food for more than three weeks, and says he intends to fast forty-two days. All efforts to induce him to eat have failed, and last night he had completed the twenty-third day of his fast. He told a reporter that he was under a Divine obligation to abstain from food for forty-two days.

Jenkins is broad-shouldered, with a wonderful physical stress had a keep over the stress of the stress derful physique, silver hair and a keen eye. He left his home in Cornwall months ago. H. N. Kingman, of Chicago, read a paper, and was followed by Colonel Exall, of Texas, who addressed the Convention on the progress and growth of the South and West. A resolution was then adopted referring to the immunity enjoyed by the class of criminals known as defaulters and embezzlers by flight to Canada, and requesting the Francisco Committee to appoint a

ing the Executive Committee to appoint a committee to represent to the State Department the great evil now existing, and urge an early amendment of the treaties with Great Britain so that the evil may be abated. BANKING IN CALIFORNIA.

A long and able paper on "The Progress of Banking in California," by Benjamin C. Wright, of San Francisco, was presented to the Convention, of which the following is the opening:

Mr. President and Gentlemen of the Convention;
Eastern eyes are turned toward California as
they have not been turned since the days of the
argonauts. Eastern ears are open to the wants
and promises of California as never before.
Eastern hearts are yearning for California as in
no previous period of its history. Eastern people are coming to California in large numbers
and with the view of permanent settlement. The victims were temporarily interred in REASONS FOR THE WESTWARD MARCH. the graveyard near town this afternoon.

What has brought about this condition of things? The causes are various. California has demonstrated its right to exist and to be recognized as one of the foremost States of the Union. It has shown that it is capable of seif-support. For thirty-nine years it has held a place in the sisterhood of States. When its star was first added to the field of blue on the flag of the country there were grave doubts as to the propriety of the measure. Those doubts have long since vanished. The large amount of gold, \$1,500, 000,000, added to the world's stock of specie by California, has not only given her the name of the Golden State, but has given her a fame ameng the nations of the earth which no other State can claim. The gold did much to prevent a disruption of the United States in 1861 to 1864, when the Government's credit was low.

the Spread of Cholera. Copyright, 1887, by the California Associated Press. NEW YORK, October 12th .- [Special.]-President Bayles, of the Health Department, is reported to be about to request the Quarantine officers to turn over to the Health Department all passengers from the steamship when they are dismissed from quarantine, and they will be taken, in all probability, to the north Brothers' Island, where they must spend more time before they are allowed to enter this city. President Bayles expresses his determination not to allow any of the persons on the Alesia to set foot on Manhattan Island until the development of cholera has passed the bounds of possibility.

Another death from cholera occurred at

Swinburne island to-day. The victim was a child. There are now nine cases on the island, and a new case has occurred among the passengers on Hoffman Island.

WILL THE "THING" "BLOW OVER !"

The organization of a Committee of Safety in San Francisco to volunteer aid to to stop up the fountains of justice, is to be ing citizens in San Francisco should deem such action a necessity, is a humiliating confession of a deplorable but undeniable condition of society. There could arise no such need, except the catise existed in abnormal social conditions of the community. For all the venality, weakness and corruption to-day in San Francisco in official and political circles, the people are directly and individually responsible, and none are more culpably blameworthy than those who now confess their error by hastily organizing to aid in the discovery of crimes against the municipality and the people. If the present uncovering of scandals in that city, and the disclosure of attempts to defile the Courts and prostitute the jury system to the ends of the vicious and criminal element, shall bring about among citizens who have been grossly neglectful of duty to the town in which they live, and practically disloyal to their obligations as sovereigns, sincere and lasting conviction of their wrong-doing, great good may be expected to result from the present excitement In another view, the organization of the

Committee of Safety commands the highest regard and commendation of orderly and law-loving people, for it testifies that in the hour of peril the better elements can be relied upon to rally against the hosts of evil. The heart of the American people is sound; however gross their laches in regard to duty-doing, they are at the botregard to duty-doing, they are at the bot-tom loyal to the institutions that conserve threatened to disfigure his faithful betterpeace, order, law and uprightness. The very fact that there are several hundred responsible men in San Francisco who have the courage to face the criminal element and the secret influences behind it, and demand their submission, demonstrates the ability of decency and whiteness in the Mayor. community at all times to conduct public affairs. The very existence of the Committee of Safety, and the public approval ing lights. it receives, establishes beyond question that if decent citizens will, they can-there and everywhere in the land-control.

Francisco cower before public wrath, and flee from the face of an outraged community, and there will be no one to blame, we repeat, but the people, if this manifestation of popular indignation against the venal and the political corruptionists shall [nature. being energetically emphasized, in San Francisco to-day, in an orderly manner, that honesty in government is a possibility, and that communities are bound hand and foot by the vicious, only when they consent to be fettered We want in all cities in this country the

return of the gentleman in force to political fields; the gentleman defined as the his own respect and that of his neighbors, and who will neither stain his hand with a bribe nor be silent or blind while others do so. There is work enough in the affairs of self-government to legitimately employ every such man some time every month of his life. If he does not so engage he must expect iniquity to develop, as weeds spring up in a neglected garden. We care a great deal less for brains and broadcloth in government and trusts, than for activity in duty-doing, honesty and decency. It was the wise and far-seeking Dr. Holland who said that "We can afford to get along without scholars in the government of cities if we can only have modestly educated gentlemen," meaning thereby the honest, intelligent, self-sacrificing man, whether his palms be horny or soft.

The need for safety committees, the distrust of municipal prosecutors and officials, the appeals to the State for advocates to confront villainy at the bar of justice, will cease when public interest is by the people made to rise superior to political intrigue, party advantage and personal ambition. Office-seeking must be redeemed from what it now so large is, a vice, and made what it can be, popular recognition of honesty and ability, before American communities will have fully demonstrated their capacity for

The present outburst in San Francisco is really a hot protest against the charge of incapacity which dangerous and venal men have made against society by their unscrupulous assumption of power, and shameless domination of the public, in Silver. order to fatten their purses and advance unworthy ambition. If the heat of the hour amounts to no more than a protest, very little and but temporary benefit will result. In that case the old conditions will be restored "as soon the thing blows over;" the old regime will resume power, until in the excess of its greed it invokes another popular upheaval.

But since in last resort the people can be relied upon, and in no peril will likely desert the institutions of self-government, or entirely consent to their subversion, the

I have been a great sufferer from eatarrh for over ten years; had it very bad—could hardly breathe. Some nights I could not sleep—had to walk the floor. I purchased Ely's Cream Balm, and am using it freely; it is working a cure surely. I have advised several friends to use it, and with happy results in every case. It is the one medicine above all others made to cure catarrh, and it is worth its weight in gold. I thank God I have found a remedy I can use with safety, and that does all that is claimed for it. IMMENSE SALE

This land is bounded as follows: On the east for two miles by the road leading from Marysville to Wheatland; on the north by the same road for two miles by the road leading from Marysville to Sacramento, leaving 2,650 acres on the east side of said road (900 in summer fallow), and 4,880 on the west side. The following improvements are on the place: Four good dwelling-houses, 6 large barns, together with all necessary outbuildings. There are now growing on the land: Two orchards; also corn, alfalfa, potatoes and beans. Most of this land will produce from 30 to 50 bushels of grain to the acre. The land is bounded on the west by the Feather river, on which there is a fine steamboat landing for the benefit of the ranch; also a fine storehouse. The land is bounded on the south by the long known Ebert ranch. Take this ranch as a whole, and there is not a handsomer or better ranch in Yuba county. Dry creek runs diagonally through the ranch and affords fresh living water the year round. The whole place can and will be subdivided in parcels to suit purchasers, so as to give each purchaser fine grain land, together with pasture, vegetable and timber land. There is the very best of fruit land on the whole of this place, which will raise citrus and deciduous fruits of every description, including oranges, lemons, limes, figs, olives, peaches, pears, apples, plums, etc. It will raise vines of every kind, and there is now growing on the ranch vines eight inches in diameter and ten feet high.

It will be subdivided into lots to suit purchasers, but bids will be reserved, and the whole will be put up in one parcel, and whichever way it brings the most money, it will go.

Persons in want of a home, can, any time before the day of sale, negotiate with Mr. Harding for any portion or the whole of this land.

It will be sold on the following terms: One-half cash, one-quarter in one year, one-quarter in two years, with ten per cent, interest per annum, secured by mortgage on the premises.

Mr. Harding will pay all taxes on mortgages

The matter was called to the attention of ried October 12, 1845, in the town of Burlington, Vermont. The groom was 21 years of age, the bride three years younger. Of six children born to them, five have been buried and the other is the wife of Colonel Donlin, of Laramie City, Wyoming. Time has dealt kindly with the Colonel and his good lady, and, although they have enjoyed wedded bliss for almost a and experienced many disappointments, they are to-day hale, hearty and happy, young in action if not in years, and surrounded with all the luxuries that wealth can purchase. Mrs. McNasser leaves for Wyoming to visit her daughter the latter part of this week, and will be followed by the Colonel some time next month.

The Recital.

Hugo Mansfeldt's "High Art Recital," which was a delightful music treat, was THE GRAND JURY .- Yesterday in De- annoyance that detracted from the comfort pleasurable surprise at his increased brilliancy of execution, and the all but appearance here in concert. His instru-ment is the violoncello, and the natural music gift of the young man was apparent the instant he drew the bow in the Hebrew melodies ("Kol Nidrei"). He plays with remarkable ease for so young a student of the art, and his execution is noteworthy for its exactness and smoothness, while he manifested feeling and a fine taste in all the numbers he played. His "Last Rose of Summer" won the only encore of the evening, though appreciative applause was not wanting for his father. Probably the gem of the evening would be noted to have been the third number, by Hugo of State, of the San Pedro, Los Angeles Mansfeldt, Liszt's "Tenth Rhapsodie," and Utah Railway Company. No sales will be made by the State Board, but any person desiring to purchase land in any particular county will be referred to the book in which the listed lands are entered. A separate book of lands will be kept for each county. At the conclusion of the debate on the subject of land listments the Board adjourned for a week.

Owing to the immense pressure of exhioits now arriving, the Board is considering the advisability of giving up their present headquarters and taking the double store on the corner of Second and Stevenson treets, two doors below their present locaion. It is believed that the amount of nonthly subscriptions promised will allow the change to be made, and the advantage to be gained from a proper display of country exhibits will be inestimable. At pres ent many of the bulkier articles are not properly displayed owing to the lack of oom, the upper floor being hardly suitable for exhibition purposes.

THE CENTRAL PACIFIC. Annual Report of the Board of Directors

for 1886. | San Francisco Call, October 12th.]

The annual report of the Board of Directors of the Central Pacific Railroad Company, for the year ending December, 1886, page 1 pany, for the ventral rating december, 1886, has just been issued. Its contents are of unusal interest in consequence of the Pacific Railroad investigation, during which the records of the company and all matters pertaining to it were given unusual publicity. The report is signed by Leland Stanford President, who submits figures and statements showing the result of the years's traffic. Particular attention is drawn to the effects of the transcontinental rate-war. Rates, says the report, have been excessively low and in many cases unreasonably so. The common interest of all is best subserved by rates which are fair and reasonable, as these can only be performed as the second process of the packets of the process of the packets and process of the packets of the process of the packets of the packets of the packets of the process of the packets of the p pany, for the year ending December, 1886, has just been issued. Its contents are of and reasonable, as these can only be permanent and uniform. With passenger traffic, however, the extremely low fares that have prevailed during the rate-war

have had an indirect effect of great value to

The Theatrical Profession.

Merit will win and receive public recognition and praise. Facts, which are the outcome of general experience, growing through years of critical and practical test, become as rooted and immovable as the rock of Gibraltar in public opinion, and henceforth need no further guarantee as to their genuineness. The indisputable fact that Swift's Specific is the best blood puritee as to their genuineness. The indisputable fact that Swift's Specific is the best blood puri-fier in the world, is one of these immovable Gibraltar rock facts of which we have spoken, ther in the world, is one of these immovable (dibraitar rock facts of which we have spoken, and every day's experience roots this conviction deeper and deeper in public opinion. Every class of our people in America and in Europe, every trade, calling and profession, including the medical profession, have borne voluntary testimony to the remarkable virtues of S. S. S. and its intallible efficacy in curing all diseases of the blood. These testimonials are on file by the thousands, and open to the inspection of all. Now come, unsolicited, two distinguished members of the theatrical profession, who gratefully testify to the wonderful curative qualities of the Specific in their individual cases. Their testimonials are herewith submitted to the public without further comment—let them speak for themselves. The lady is a member of the famous Thalia Theater Company, of New York, and formerly of the Residence Theater, Berlin, Germany, and of McVicker's Stock Company, of Chicago. The gentleman is a well-known member of the New York Thalia Theater Company. Both are well-known in theatrical circles in this country and in Europe.

Charlotte Randow's Testimony.

Charlotte Randow's Testimony.

New York, May 3, 1887.

Swift Specific Company, Atlanta, Ga.:

Gentlemen—Having been annoyed with pimples, eruptions and roughness of the skin from bad condition of my blood, for more than a year, I used a leading preparation of exersaparilla and other advertised remedies to me effect. Then I consulted a proximent physician, and from his treatment received no benefit. I then concluded to try the S. S. remedy for the bleed, and five or six packages, by a thorough eradication of my trouble and restoring smoothness, to my skin, have made me happy, and I cheerfully give you this testimonial for such use and publicity as you wish to make of it.

MISCELLANEOUS.

Never Put Off Till to-morrow, to-day's duty. If you have a Cold, Cough, Bronchitis, or any form of Throat or Lung disease, do not neglect it. Ayer's Cherry Pectoral, if promptly taken, will speedily relieve and cure all ailments of this character. Two years ago I took a severe Cold,

which, being neglected, was followed by a terrible Cough. I lost flesh rapidly, had night sweats, and was soon confined to my bed. A physician was called, but the medicine he prescribed afforded only temporary relief. A friend advised the use of Ayer's Cherry Pectoral. I began taking this medicine, and before finishing the first bottle was able to sit up; four bottles effected a perfect cure.

-Geo. W. Dick, Newton, Mass.

In several cases of Bronchitis, caused by exposure to damp and cold weather, I have used Ayer's Cherry Pectoral. It is an anodyne expectorant of great value and usefulness to patients of all ages. Its certainty of action, and its safety as a household remedy, are forcible arguments in its favor. No other cough preparation does its work so quickly and satisfactorily.—C. E. Hoyt, M. D., New Orleans, La.

Aver's Cherry Pectoral, Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1; six bottles, \$5.
